TEOS

TEOS by INTRALIGNE® - a new range of high performance touch panel PCs, dedicated to kiosk, digital signage & display applications •

TEOS by **INTRALIGNE®**

Available in 3 different screen sizes (12", 15", 17"), the TEOS panel PCs are equipped with high-brightness TFT resistive touch panels.

SAW panels ('Surface Acoustic Wave' technology) are an option for even more clarity, precision and robustness.

The hard disk is easily accessible thanks to a removable cover. Alternatively, TEOS can be supplied with a special slot for a Flash Disk (replaces the hard disk.)

Last but not least, the front side of the display is robust - and dust and waterproof - with an IP55 protection rating.
