

The detector is preprogrammed with information for 5 currencies, but can be reprogrammed to authenticate any other type of currency.

If necessary, the detector can be easily re-programmed for banknotes of new denominations.

Self-cleaning magnetic sensors keep the device working accurately, even during intensive use. Can be powered with the power cable, batteries, or a 12v adaptor.

Quickly authenticates 5 currencies.
Can be powered with the power cable,
batteries, or a 12v adaptor.
Expert level authentication

Multi-currency Automatic Detector

PRO 310A MULTI 5

Multi-currency Automatic Detector

PRO 310A MULTI 5

Quickly authenticates 5 currencies.
Can be powered with the power cable, batteries, or a 12V adaptor.
Expert level authentication.

ADVANTAGES

- ▶ Automatically adjusts settings for specific currency
- ▶ Multiple sensors
- ▶ Identifies « super forgeries »
- ▶ Runs a self-diagnostic when the detector is turned on
- ▶ Is powered via a cable or battery
- ▶ Usable in an automobile (12V adapter included)
- ▶ Suspicious banknotes are not included in overall results
- ▶ Can re-program the detector for any currencies or new denominations
- ▶ Provides sound, light and error code indications when a suspicious banknote is found

FUNCTIONS

- ▶ Detects suspicious banknotes based on infrared, magnetic, optical density, and banknote size detection
- ▶ Spectral analysis of ink
- ▶ Summation by denomination of authenticated banknotes

APPLICATIONS

Commercial and retail outlets, cash operations for corporations, currency exchange offices, ticket offices, etc
