

Universal Detector

PRO 12 series

Professional functions,
accessible for everyone
Long life product

ADVANTAGES

- ▶ Powerful and reliable UV light
- ▶ Heat-resistant plastic case increase the life of the device
- ▶ Magnifying lens for fluorescence control on the whole banknote under the UV light and the availability of protective fibers
- ▶ Detector's cover is designed to prevent the dispersion of UV rays in daylight
- ▶ Touch sensor, automatically turn on/off
- ▶ Resistant to voltage unstability
- ▶ Allows multiple banknotes checking when fanned out
- ▶ Operating table with a ruler
- ▶ Built-in MG sensor
- ▶ Warranty 12 months

FUNCTIONS

- ▶ Verifies banknotes and securities in UV light, white backlight
- ▶ Checks magnetic properties
- ▶ Checks size (definition of solvency)
- ▶ Checks micro-printing and small elements in 2,5x magnification

APPLICATIONS

Cashiers, exchange offices, banks, legal departments (authentication of certificates and documents)
