ODYSSÉ by POSLIGNE®

Integrated terminal with
8 interchangeable colours
to blend perfectly with every
kind of retail style, décor and
atmosphere

INTEGRATED SYSTEM

Odyssé is the first exclusive POSLIGNE® collection of integrated touchscreen point-of-sale terminals with distinctively styled, colourful and contemporary lines.

The unique «Clip'n Color» concept uses interchangeable polycarbonate colour clips located on the unit's sides, touchscreen frame and integrated customer display. Odyssé can change its hue to match retail stores' brand image and visual identity.

Combining design style and high performance, the one-of-a-kind Odyssé terminal incorporates the latest POS technologies (Intel P4 processor with 1GB of RAM for «Power+» version, RAID 0/1, RFID, Wi-Fi interface, SATA disk drives and more).

Touchscreen	15"
Processor	INTEL Celeron 2.5Ghz or INTEL Pentium 4 - 2.6Ghz
Hard disk drive(s)	80GB 3.5"
Interface	RAID 0/1 – SATA available
RAM	512MB, expandable to 2GB
Touchscreen	Resistive
Display angle	60° adjustment
Resolution	1024 x 768
Brightness	250cd/sqm
Customer display	2 lines x 20 characters
Compact Flash Drive	1 easy-access flip cover
PCI mini port	1 integrated

Inputs/Outputs	2 or 4 (2 on front face) USB 2.0 ports, port USB retail 24V & 12V, 4 x serial ports, parallel port, 24V port, 10/100 network port, cashdrawer port, keyboard/mouse port
Power supply	Integrated
Dimensions (mm)	418 x 361 x 222 in upright position 418 x 381 x 325 in tilted position (60° screen angle)
Weight	10.2kg including card reader
Materials	Polycarbonate (frames, accessories and customer display)

OPTIONS

Reader for magnetic cards	CD/DVD player
Contactless RFID cards reader	Wi-Fi interface
Dallas key reader	2 nd hard disk for RAID technology

A high-performance
PC platform
for all retail
applications and
environments

Poséo 5200

POSÉO by POSLIGNE®

MODULAR SYSTEM

Designed especially for the world of retail, Poséo is one of the most powerful PC platforms available on the POS technology market.

Featuring compact dimensions, this system is sturdy, safe, reliable, long-lasting and easy to maintain, and is at home in both «front office» environments (cash desk) and in the «back office» (where it can be used as a server, for example).

When used with a touchscreen such as POSLIGNE®'s OLC 15, Poséo functions as the nerve centre of an ultra-high-performance point of sale system.

The Poséo PC is built on a 1.6 mm-thick reinforced steel baseframe, ensuring optimum solidity.

In the 5200 version of Poséo, the RAID controller provides maximum protection of sensitive data, thanks to automatic back-up. A control screen displays real-time system status.

Poséo 5100

Model	POSÉO 5200
Processor	Celeron D 3.2GHz – Core 2 Duo 2.13 GHz – P4 3.4 GHz
Chipsets	INTEL 945G + ICH7R
RAM	up to 4GB – 2 x DDR2
Hard disk drive	SATA 80 GB hot swap disk drives (1 or 2 disks)
RAID 0/1	integrated
Slots	2 x PCI
Control LCD display	in front
Inputs/outputs	1 x LAN (Giga), 1 x port DVI, 1 x RS485 / RS422, 6 x USB 2.0, 2 x RS232 (self powered), 3 x RS 232, 1 x cashdrawer output, 1 x output 12 V, 1 x output 24 V
Dimensions (W x D x H)	270 x 335 x 120 mm
Weight	7 kg
Power supply	integrated

OPTIONS (for the Poséo 5200 model only)

- Option 1 : 4 x USB Retail + 4 x USB 2.0
- Option 2 : 2 x RS232 + 4 x USB 2.0

Model	POSÉO 5100
Processor	Celeron 2.5 GHz
Chipsets	INTEL 852 GM + ICH4
RAM	up to 2 GB – DDR
Hard disk drive	1 or 2 (IDE)
Inputs/outputs	1 x LAN (10/100) 6 x USB 2.0, 2 x RS232 (self powered), 3 x RS 232, 1 x cashdrawer output, 1 x output 12 V, 1 x output 24 V
Dimensions (W x D x H)	270 x 335 x 120 mm
Weight	7 kg
Power supply	integrated

GALÉO by POSLIGNE®

VERTICAL INTEGRATED SYSTEM

Galéo is the vertical «all-in-one» integrated system of the POSLIGNE® range.

With its simple, fluid and minimalist lines, Galéo rises from its base unit – which contains both the CPU and the customer display – and has the smallest of sales counter footprints. Its vertical design makes it perfect for a wide range of applications including bars, restaurants, fast food outlets, multiple-till checkout counters and all forms of takeaway retail.

Sturdy and stable, Galéo offers well thought-out accessibility featuring thumbscrews for tool-free opening at both front and rear.

This simplifies routine maintenance and enables quicker, easier servicing and maintenance. Galéo is available in fan-equipped or fanless versions. It is available in 2 colours, pearl (white) and graphite (grey).

Touchscreen integrated terminal with modern design and elliptical curves

Touchscreen	15"
Processor	Galéo 100 fanless : Intel Celeron 1.0 GHz ULV M Galéo 150 : Intel Celeron (M) 1.5 GHz
Chipset	Intel 852 GM + ICH4
Hard disk	HDD 40 GB 2.5" on removable support
Memory	SO DIMM 512 MB up to 2 GB
Graphic Memory	shared memory up to 64 MB
Flash Memory	Optional Flash disk
Touchpanel	resistive
Tilt angle	adjustable 65°
Resolution	1024 x 768 max
Brightness	250 – 350 cd/m²
Customer display	2 lines x 20 characters

Inputs/outputs	4 x serial ports RS232, 4 x USB 2.0 (one on the front side of the system), 1 x parallel port, 1 x LAN 10/100 (RJ 45), 1 x cashdrawer (12 / 19 V), 1 x audio in/out, 1 x mini PCI slot for additional stability
Fixing system	
Dimensions	290 x 200 mm (base) , about 420 mm high (vertical screen)
Weight	11 kg

OPTIONS

Magnetic card readers	Wi Fi interface
RFID contactless cards	Memory SO DIMM 1GB
Dallas key readers	Additional video output

OCD 100 by POSLIGNE®

CUSTOMER DISPLAY

The OCD 100 features 2 x 20 character display lines and full swivel capability, with self-powering available via serial or USB retail ports.

Units are supplied with 3 different colour clip sets as standard, enabling users to customise their display to match their point of sale's colours and style.

Clips for OCD 100 (pearl)

Clips for OCD 100 (graphite)

Optional colour kit

ODP 200 by POSLIGNE®

THERMAL RECEIPT PRINTER

With fluid lines, specially selected materials (including polycarbonate) and interchangeable colours, the ODP 200 thermal printer features all the advantages of POSLIGNE® design.

With an easy-to-use 'drop-in' paper roll reloading system, a print speed of 150mm/s, 5 interfaces (parallel port, Ethernet, USB, serial port and Wi-Fi), end-of-roll detection and more, the ODP 200 complements all POSLIGNE® equipment.

PS 50/70 by POSLIGNE®

HANDHELD LASER READER & SCANNER

The PS 50 by POSLIGNE® has excellent design ergonomics, and is the only handheld laser scanner to come with a set of different colour clips, providing a perfect match with the other ePOS of the range.

The omnidirectional scanner PS 70 has a scan speed of 1400 scans/sec. It is especially dedicated to applications where space on the sales counter is usually limited.

OLC 15 by POSLIGNE®

POINT OF SALE TOUCHSCREEN

Fully in keeping with the POSLIGNE® spirit, the OLC 15 is the first point-of-sale touchscreen to feature interchangeable colour schemes. The unique modular «Clip'n Color» system, with clips in different hues, enables the device to be matched to any sales environment and maintain its visual identity.

Its refined, elegant lines, strikingly original profile and overall appearance make this touchscreen with integrated

power supply one of a kind on the market. Retail users and staff will love its state-of-the-art design - equally attractive when viewed from in front, behind, and in profile - and so will customers paying for their purchases.

All POSLIGNE® peripherals are compatible with other POS systems available on the market.
