

Motorola RFID Solutions for Retail

FRONT OF THE STORE MOBILITY. BACK OF THE STORE VISIBILITY.

RFID Solutions from Motorola can transform the retail customer experience. With real-time visibility into back room and sales floor stock levels, products can be quickly replenished so customers find what they want, when they want it. Associates can spend more time assisting shoppers and less time looking for products that should be on shelves. And managers can ensure the store is running smoothly, instead of searching the back room for the latest 'must-have' handbag. It's just another way Motorola puts Enterprise Mobility in the palm of your hand. HELLOMOTO™
